Reliant Home Health Celebrates One Year Anniversary

San Antonio, TX—August 17, 2011—Reliant Home Health, a top provider of skilled nursing, physical, occupational and speech therapy in San Antonio, celebrated its first anniversary on Tuesday, August 16, 2011.

Their sister company in Allen, Texas, has been in operation for more than eight years.

When Reliant's President, Russ Krengel purchased the agency a year ago, he had a skeletal staff. In less than a year, Reliant now has a staff of 31 full time and part time employees working in the office and out in the field and serves 142 patients.

Reliant's senior management team brings more than 75 years of clinical and healthcare management experience to the agency

Krengel is an experienced business manager who implements best practices for both patient care and business management.

"We find it a privilege to serve seniors and believe the best care solution includes providing superior service while delivering education and detailed, disease-specific information to the patients and their adult children caregivers," explained Krengel. "When you've got a team that's truly passionate about what they do, the growth seems to come naturally."

Since its inception, Reliant continues to grow. In July alone, the agency had more than 1,300 patient visits. Krengel estimates that number will grow to 20,000 visits over the next 12 months.

He also plans to add more full and part time staff including nurses, therapists, aids and administrative positions.

“We hire team members who believe in our same philosophy of serving seniors,” said Kregel. “In turn, we provide a workplace that instills a sense of family. We understand the importance of appreciating our employees who make a difference in the lives of our patients.”
